WAREHOUSING

"ECONT TRANS" plc, is a member of the Bulgarian National Society of the Forwarding Agents and is also an associated member of FIATA.

Founded in 1993, the company is exclusively specialized in complex "door-to-door" deliveries of general, bulk and liquid cargoes, crossing several countries and combining several types of transport. The company departments act as subcontractors in the transactions, including road and water transports as well as ports and warehouses in their various combinations.

To fully control the process of combined transport, separate departments had to be established, directly operating on their related markets. The following departments act as independent companies on their markets - "Marine transport", "River transport", "Railway transport", "Forwarding, customs and port formalities", "Agency", "Road transport", "Shipchandling" and "Ro-Ro transport". The department managers are authorized to negotiate, realize and report transactions and contracts in their sphere of activity.

Whatever you are transporting and wherever it is going. Contact us any time.

We will meet your needs!

Sincerely yours:
Nikolai Sabev
Managing Director

"Еконт транс" АД е член на националното сдружение на българските спедитори, а също така и асоцииран член на ФИАТА.

Основано през 1993 г. дружеството специализира изключително в комплексни доставки "врата до врата" на генерални, насипни и течни товари, преминаващи територията на няколко държави, комбинирайки няколко вида транспорт. Отделите в дружеството действат като подизпълнители на отделните операции, включително пътен и воден транспорт, пристанищни операции в многобройните им комбинации.
